Jasmine T-200 multi-media mini tube amplifier

It's not only a wonderful mini tube amplifier but also an amazing external hi-end tube computer sound card. It's especially designed for those who love music but have to sit opposite to computer working for hours everyday. Absolutely tube sound, musical, warm and smooth.

Jasmine T-200 can be connected to computer, MP3/I-Pod player, CD player to drive traditional speakers and headphones. With the USB port, the amplifier can be directly connected to the computer as an external USB sound card. Now you can take advantage of endless music sources on the internet. Your computer can be used as a sound source and play any format of music files. It's not fade music from internal sound card anymore, it's tender tube-taste music now.
